Eye-to-Eye Conversations for More Natural Video Meetings

Boost Meeting Equity for All Team Members, No Matter Where They Are

The DTEN D7X Dual's spacious 55" displays enable more engaging and meaningful meeting sessions with dedicated screen space for shared content and remote meeting participants.

Unique in its class, the D7X Dual includes a professional 4K camera system centrally located to capture in-room participants comfortably *at eye level*.

This innovative design produces more natural same-room meeting experiences for both in-room participants and remote team members.

Leave No Teammate Behind

When combined with **DTEN Smart Framing technology**, the D7X Dual will identify, optimize and partition individual video frames for in-room participants. The resulting video stream provides more immersive same-room meeting experiences to remote participants.

3 Participants in Room

Smart Framing Recognizes Participants

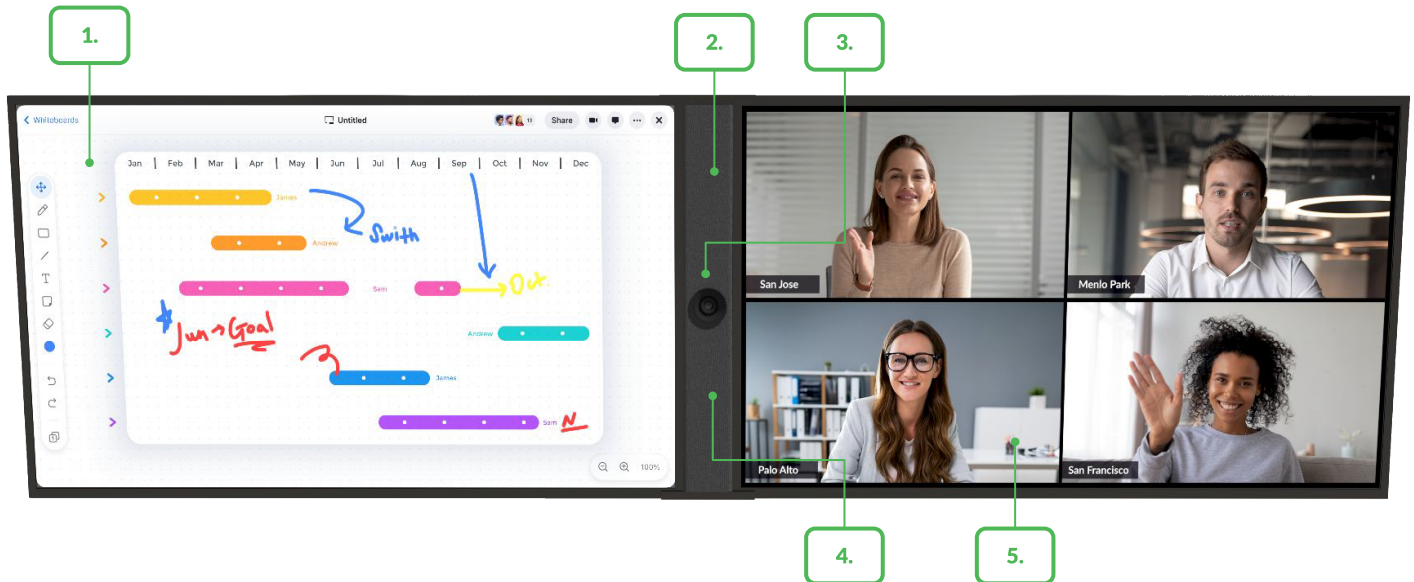

Produced Video Stream

Built for Hybrid Collaboration Today, Ready for the Future of Work Tomorrow

From the ground up, the D7X Dual has been designed to provide the ultimate platform for video-first collaboration sessions, with extra headroom for the future of work. Additional USB ports, 3.5mm audio jacks, support for bluetooth audio and an extra HDMI in/out provides greater flexibility and extensibility.

Whether you're adding a document camera, assisted listening device or connecting to a large-scale projector screen, the D7X Dual packs the connections and the processing power to get the job done.

D7X Dual At a Glance

- 1. 4K Capacitive Multi-touch Display
- 2. AI-assisted 8-Microphone Array

- 3. 4K Center Camera with Built-in Privacy Shutter
- 4. Front-facing Speaker System
- 5. Built-in OPS Module for One-touch to Start Video Meetings

Streamlined Setup, Easy Operation and Convenient Control

Add the DTEN Mate 10.1" Room Controller and Scheduler for convenient control and management at the tabletop.

The D7X Dual sets up in minutes, right out of the box. Mounting hardware, drilling template and wall anchors come supplied in the box. Simply attach the drilling template to the wall, hang the screens and slide them together to meet the center AV bar.

The D7X Dual is compatible with standard 400x300mm VESA mounts for added mounting flexibility on rolling carts or tabletop and counter clamps.

Complete Your Meeting Room with DTEN Orbit Service

Add **DTEN Orbit Service** for remote device monitoring, configuration control and easy updates

DTEN Orbit Mission Control keeps meeting rooms up and running with automatic issue resolution and repair
